Just For Fun

"Well it took \$80 dollars in diesel, 90 miles round trip, 7 hours, 14 Advil, and a bit of bloodshed BUT we managed to save \$0.32 a bale!"

Originally audience was folks caring for farm large animals. However, I like the implications for supply-chain management and sound financial management (or the lack thereof).

My source: A Facebook post; artistic source: see indicated website.

'Spread sheets, Alex, that's all there is. From early in the morning till late in the afternoon. I swear to God, you don't know how good you've got it. Now, be a good boy and let go of me.'

Excel Addicts ... Is your pet missing you?

Source: A Facebook post by the author/cartoonist, who is a friend of mine.

The trouble with doing something right the first time is that nobody appreciates how difficult it was.
